# **Human YRDC Recombinant protein (His tag)**

Catalog Number: 514527

## **General Information**

## Gene Name Synonym

Dopamine receptor-interacting protein 3; Ischemia/reperfusion-inducible protein homolog; hIRIP

### **Protein Construction**

A DNA sequence encoding the human YRDC (NP\_078916.3) 56-279 aa was fused with the polyhistidine tag

## **Organism**

Human

## **Expression Host**

E. coli

## **QC Testing**

### Activity

Not tested.

#### **Endotoxin**

Please contact the lab for more information.

## **Stability**

Store for up to 12 months at -20°C to -80°C as lyophilized powder.

## **Formulation**

Protein lyophilized in sterile PBS (58 mM Na2HPO4, 17 mM NaH2PO4, 68 mM NaCl, 100 mM GSH, pH 8.0). Trehalose (5-8%) and mannitol

(5-8%) protectants were added before lyophilization.

# **Usage Guide**

## **Storage**

Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

### Reconstitution

Reconstitute at  $0.25~\mu g/\mu l$  in sterile water for short-term storage. Reconstitution with 50% glycerol solution is recommended for longer term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.

## **SDS-PAGE**

Recombinant human YRDC SDS-PAGE
