

Anti-CNTF/Ciliary Neurotrophic Factor antibody

Catalog Number: 101301

Product name

Anti-CNTF/Ciliary Neurotrophic Factor antibody

Clonality

Polyclonal

Immunogen

[Mouse CNTF/Ciliary Neurotrophic Factor \(His Tag\) recombinant protein](#)

Ig Type

Rabbit IgG

Applications

ELISA, IHC-P

Specificity

Mouse CNTF / Ciliary Neurotrophic Factor

Dilutions

ELISA: 0.1-0.2 µg/ml

Antibody description

Rabbit polyclonal to CNTF/Ciliary Neurotrophic Factor

This antibody can be used at 0.1-0.2 µg/ml with the appropriate secondary reagents to detect Mouse CNTF / Ciliary Neurotrophic Factor. The detection limit for Mouse CNTF / Ciliary Neurotrophic Factor is < 0.039 ng/well.

Preparation

Produced in rabbits immunized with purified, recombinant Mouse CNTF / Ciliary Neurotrophic Factor (rM CNTF / Ciliary Neurotrophic Factor; NP_740756.1; Ala2-Met198). CNTF / Ciliary Neurotrophic Factor specific IgG was purified by Mouse CNTF / Ciliary Neurotrophic Factor affinity chromatography.

IHC-P: 0.1-1 µg/mL

Validations

CNTF / Ciliary Neurotrophic Factor Antibody, Rabbit PAb, Antigen Affinity Purified, Immunohistochemistry

Formulation

0.2 µm filtered solution in PBS

Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Immunochemical staining of mouse CNTF in mouse brain with rabbit polyclonal antibody (0.1 µg/mL, formalin-fixed paraffin embedded sections).
