

Anti-EPYC antibody

Catalog Number: 142957

Product name

Anti-EPYC antibody

Monoclonal

Ig Type

Mouse IgG1

Applications

IHC-P

Immunogen

[Human Epiphykan / DSPG3 \(His Tag\) recombinant protein](#)

Specificity

Human Epiphykan / DSPG3

Dilutions

IHC-P: 10-30µg/mL

Antibody description

Mouse Monoclonal to Human EPYC

Validations

Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human Epiphykan / DSPG3 . The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.

Formulation

0.2 µm filtered solution in PBS

Human Epiphykan / DSPG3

Immunohistochemistry(IHC) 15789

Storage

This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C.

Preservative-Free.

Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

Human Epiphykan / DSPG3
