

Human IL-28B/IFN-lambda-3 (His Tag) recombinant protein

Catalog Number: 500592

General Information

Gene Name Synonym

Cytokine Zcyto22; Interleukin-28B;
Interleukin-28C

Protein Construction

A DNA sequence encoding the human IL28B (NP_742151.2) (Met 1-Val 196) was expressed, with a polyhistidine tag at the C-terminus.

Organism

Human

Expression Host

Human Cells

QC Testing

Activity

1. Measured in antiviral assays using WISH human amnion cells infected with vesicular stomatitis virus (VSV). The EC_{50} for this effect is typically 2-6 ng/mL.
2. Measured by its binding ability in a functional ELISA. Immobilized human IL28B at 20 μ g/ml (100 μ l/well) can bind human IL10RB with a linear ranger of 3.125-25 μ g/ml.

Purity

> 96 % as determined by SDS-PAGE

Endotoxin

< 1.0 EU per μ g of the protein as determined by the LAL method

Stability

Samples are stable for up to twelve months from date of receipt at -70°C

Predicted N terminal

Val 22

Molecular Mass

The recombinant human IL28B consists of 186 amino acids and predicts a molecular mass of 21 kDa. In SDS-PAGE under reducing conditions, rhIL28B migrates as an approximately 23 kDa band.

Formulation

Lyophilized from sterile PBS, 500mM NaCl, pH 7.4

1. 5 % trehalose and mannitol are added as protectants before lyophilization.
2. Please contact us for any concerns or special requirements.

Usage Guide

Storage

Store it under sterile conditions at -20°C to -80°C. It is recommended that the protein be aliquoted for optimal storage. Avoid repeated freeze-thaw cycles.

Reconstitution

Adding sterile water, prepare a stock solution of 0.25 mg/ml. Concentration is measured by UV-Vis.

SDS-PAGE

Human IFNL3 / IL28B / Interleukin-28B Protein (His Tag) SDS-PAGE
