S.cerevisiae PAM18/TIM14/YLR008C recombinant protein

NovoPro

Catalog Number: 518478

General Information

Gene Name Synonym

Mitochondrial import inner membrane translocase subunit TIM14; Presequencetranslocatedassociated motor subunit PAM18; PAM18; TIM14

Protein Construction

A DNA sequence encoding the S.cerevisiae PAM18/TIM14/YLR008C Phe99-Lys168 is expressed.

Organism

S.cerevisiae

Expression Host

E. coli

QC Testing

Purity

>95% as determined by SDS-PAGE.

Endotoxin

 ${<}1.0$ EU per μg protein as determined by the LAL method.

Stability

Store for up to 12 months at -20°C to -80°C as lyophilized powder. Aliquots of reconstituted samples are stable at < -20°C for 3 months.

Formulation

Lyophilized from a 0.2 μm filtered solution of 20mM Tris,300mM NaCl,pH8.0.

Usage Guide

Storage

Lyophilized protein should be stored at <-20 °C, though stable at room temperature for 3 weeks. Reconstituted protein solution can be stored at 4-7 °C for 2-7 days.

Reconstitution

Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100μ g/ml. Dissolve the lyophilized protein in ddH2O. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.
